

REX V. BOGANI

Software Engineer | Programmer Analyst III

09456850450 rex.bogani91@gmail.com <https://rexbogani123.github.io/My-Portfolio-/>

ABOUT ME

Software Engineer and Programmer / Analyst III with professional experience in backend and full-stack application development, REST APIs, database-driven systems, enterprise software, and web applications. Experienced in .NET Core, C#, PHP, JavaScript, PostgreSQL, MySQL, Azure services, Git, and modern software engineering practices. Strong focus on maintainable architecture, secure integrations, database design, API development, troubleshooting, and delivering production-ready business solutions.

EDUCATION

2015 - 2019
Benedicto College Bachelor of Science in Information Technology (BSIT)
Institution: Benedicto College, Mandaue, Cebu

EXPERIENCE

June 2025 - June 2026 Vertere Global Solutions	Programmer / Analyst III - Assigned to an enterprise software development engagement supporting RCBC business operations. - Develop and maintain backend services and REST APIs using .NET Core 8 / ASP.NET Core and C#. - Contribute to a digital payroll platform, including application services, API workflows, database operations, and business rules. - Work with PostgreSQL for data modeling, queries, transactions, and application integration. - Collaborate through GitLab-based source control and development workflows. - Analyze requirements, troubleshoot production and development issues, and implement maintainable solutions. - Apply object-oriented design, layered architecture, secure coding, validation, and API integration practices.
Feb 2023 – Augt 2024 Tech Mahindra	Software Engineer - Developed and maintained enterprise applications and backend services based on project requirements. - Designed and integrated REST APIs and supporting application components. - Worked with SQL/database-driven functionality and application troubleshooting. - Implemented enhancements, bug fixes, validation, and technical improvements across assigned systems. - Collaborated with developers and stakeholders to analyze requirements and deliver reliable software solutions.
Jul 2019 - Jan 2023 Sto. Nino De Cebu Finance Corp	Software Engineer - Developed and maintained web-based applications, including the Blusky General Insurance website. - Maintained and enhanced ERP Master File modules and developed related reports. - Created automated tests to improve ERP system quality and reliability. - Developed and maintained front-end and back-end components. - Analyzed requirements and implemented software solutions using the Waterfall SDLC.

SKILLS

- Backend & APIs: C#, .NET 8 / ASP.NET Core, REST APIs, PHP 8+, PDO, API integrations
- Frontend: HTML5, CSS3, JavaScript, Bootstrap, responsive web development
- Databases: PostgreSQL, MySQL 8+, MSSQL, database design and optimization
- Cloud & Services: Microsoft Azure services, payment gateway integrations, email services
- Engineering: OOP, SOLID principles, Clean Architecture, Repository / Service patterns, Dependency Injection, DTOs
- Tools: Git, GitLab, GitHub, Postman
- Quality & Security: Unit Testing, Debugging, Authentication, Authorization, CSRF Protection, JWT, Secure API Handling

SELECTED PROJECT

Azer Travel & Tours — Travel Management & Booking System

Independent Full-Stack Project | Production Web Application

- Developed a production travel management and booking platform for tours, visas, invoices, payments, and B2B operations.
- Built customer booking flows and admin management modules using PHP 8+, MySQL 8+, PDO, Bootstrap 5, JavaScript, HTML5, and CSS3.
- Implemented SOLID, Clean Architecture, Repository/Service patterns, DI, DTOs, Strategy/Factory patterns, PSR-4, and PSR-12.
- Integrated PayMongo and PayPal with secure checkout, webhooks, payment validation, authentication, RBAC, CSRF protection, and secure APIs.
- Developed a B2B portal and PWA with partner pricing, bookings, transactions, offline support, service workers, and responsive design.
